Rationale of the event :

Personality development is relatively the enduring pattern of thoughts, feelings, and behaviours that distinguishes individuals from each other. Multifaceted traits are deemed to have immense impact in one's career development as well as in professional development.

In recent years, the rapid developments in science and technology and the challenges of globalization are posing additional challenges to the education system. So, to keep pace with the rapid changes in the world at large, the University Grants Commission has been issuing guidelines from time to time for introduction of Career Oriented Courses in Universities and Colleges with an aim to reorient and reshape policies and programmes to make the current Indian Higher Education System more relevant and career-oriented with focus on quality and excellence. It has been envisaged that professionally qualified graduates with a sound knowledge of their core disciplines and expertise in a concerned skill will have more openings in service, industry and self-employment. Soft skills and life skills can make human life more adorable by altering his attitudes & traits and at the same time paving the way for better opportunity and employability.

Soft Skills is a term often associated with a person's ("EQ") Emotional Intelligence Quotient, the cluster of personality traits, social graces, communication, language, personal habits, interpersonal skills, managing people, leadership, etc. that characterize relationships with other people. Life Skills have been defined by the World Health Organization (WHO) as "abilities for adaptive and positive behaviour that enable individuals to deal effectively with the demands and challenges of everyday life". They represent the psycho-social skills that determine valued behavior and include reflective skills such as problem-solving and critical thinking, to personal skills such as self-awareness, and interpersonal skills.

It has become essential for higher education institutions to equip the students with Skills that would increase the employability quotient. In this context, the National Seminar and Workshop on "Significance of Soft Skills and Life Skills and its Pertinence in Career Development" is being organized with an aim to bring under one roof academicians and faculty members, researchers and students to share views and ideas about the importance of Soft Skills/Life Skills and its parameters. The seminar is an effort to produce a distinctive way of thinking about how innovations in higher education can influence the quality of student's life.
