Kendriya Mahavidyalaya, on the 12th September 2022. The workshop was inaugurated by the Principal of the College, Dr. Dulen Saikia. The resource person for the event was Mr. Biju Pegu, Managing Director and CEO, Grantha Technology Private Limited.

Mr. Biju Pegu has more than 15 years' experience in IT and Cybersecurity. and holds multiple cyber Security certifications like prestigious EC-Council Certified Ethical Hacker, EC-Council Certified Security Analyst (ECSA), EC-Council's Certified Hacking Forensic Investigator (CHFI), World famous Offensive Security Certified Professional (OSCP) certification and ISACA's Certified Information Systems Auditor (CISA) certification. CISA is world-renowned as the standard of achievement for those who audit, control, monitor and assess an organization's information technology and business systems. Biju Pegu has been honoured with Cyber Security Crusader of the Year 2020 Award for spreading cyber security awareness across the country. The award was presented to Mr. Pegu by Union Minister of State for Steel and Rural Development Faggan Singh Kulaste and former Rajya Sabha MP Jayaprada. Mr. Biju Pegu has also been awarded the "Entrepreneur of the Year - IT Innovation" by Shri Ramdas Athawale, Hon'ble Minister of State for Social Justice and Empowerment, Government of India and many more. Biju Pegu, a leading certified cyber security analyst from Northeastern region has been relentlessly working to spread cyber security awareness in the country by addressing workshops at top educational institutions including different IITs, NITs, schools, universities, corporates like ONGC and others and have trained more than 1 lakhs students and general public about cyber

security. Mr. Pegu also worked in IIT Guwahati for around 11 years in different speech related projects.

The objective of the workshop was to alert teachers and students about common cyber threats, to educate on counter defence tools, on how to keep accounts and credentials safe, and how to avoid common, yet dangerous threats and malicious scams. The workshop was an eye opener for students as well as teachers. As Cyber threats continue to evolve rapidly, the workshop fulfilled the much needed awareness on cyber security.

Mr. Pegu began his presentation by defining hacking and differentiating between ethical and unethical hacking. The rest of the session was focused on demonstration of ways in which information and data are mismanaged and how one can protect data and accounts from being hacked. The workshop was further enlivened with practical examples of hacking with students sharing their experiences and learning. All in all, the interactive session gave a fulfilling experience to all participants.
