#### Highpoints of the Mentoring Session

##### Semester-I and II, 2022-23

75 Mentees were allotted to me in the academic year 2021-2022. An icebreaking session was conducted at the beginning of the academic year to get acquainted with the mentees. The session helped me to make out the talents, interests and aspiration of the mentees. Their tastes in arts, sports and academics were also discussed.

An interactive session with mentees was also conducted to know the socio-economic and cultural background of the mentees. Individual counselling and guidance were given for the needy students. Peer teaching with the help of the leaders was also provided for the students who were academically back.

##### Some issues raised in the mentor-mentee sessions:

- ❖ Students raised difficulties in understanding some course materials.
- ❖ Students expressed their apprehensions in balancing their studies, and other things.
- ❖ Time management while writing examinations as the patterns of examinations changed.
- ❖ Some of the students hesitated to come forward to participate in extracurricular activities due to social anxiety.
- ❖ Some students find hard to build relationships especially in new environment.
- ❖ Frequent interactions with the mentees were conducted to resolve academic.

Self-Inspection Report of the Mentor

For the academic session 2022-23, I was assigned as a Mentor of 16 students out of which 11 from 1st semester and 5 from 3rd semester. Most of the students are from economically weaker section and with poor educational background. Out of 16 students, 5 left the college after 3 months due to their personal problems. As a mentor I tried to help them not only in academic matters but also other problems faced by them.

Issue raised	Suggestion forwarded
1. Additional notes & study materials	This issue has been solved by providing more notes and discussing previous year question papers.
2. Regarding attendance	To solve this issue students were again informed that they would be discollegiate if their attendance percentage would not above 75%.
